

Blended Waxes, Inc.

Product Data Sheet

BW-198M Square and Barrel Coating

Description

A flexible, non-cracking wax with excellent coating properties and special additives to prevent the growth of mites. We recommended this wax to be stored in a cool, dry area away from direct sunlight. Avoid temperatures in excess of 90°F.

Applications

This wax is used as a protective coating for containers, primarily cheese barrels and boxes. It has F.D.A. approval for food packaging applications.

BW-198M Square and Barrel Coating Wax Properties		
Test Description	Typical	Range
Congealing Point (D-938)	135° F 57° C	133° - 137° F 56° - 58° C
